What's New at Arland Tool

New Engineering Office

In May of 2009, Arland's Engineering Dept. moved into our new 5,000 Sq. Ft. Facility which includes an expanded conference area, and room for continued growth to better support our manufacturing operations.

In June of 2009 our new Mazak 80N came on line to enhance our Turning Capabilities to meet the needs of our customers. This new machine can swing a 34" dia. by 120" length and is steady rest capable.

New Mazak 80 N

August 2009 – Our Newly Redesigned Web Site Is Released
